SAFe® Product Owner/Project Manager (POPM) Certification

Course Outline

About SAFe Product Owner/Project Manager

SAFE POPM plays a critical role in defining and creating value for customers by guiding product development and ensuring that they meet customer needs. SAFe POPMs are an integral part of the SAFe framework, enabling organizations to align their product development efforts with business goals and customer needs. They bring a customer-centric focus to the Agile development process, ensuring that products are developed and delivered in a way that maximizes value and achieves business outcomes.

Know The Key Features

- Ownership of the Product
- Collaboration
- Product Planning
